

ARTS COUNCIL *for* MONTEREY COUNTY

Success for Every Student? The Arts Are the Answer!

Dear

I've always loved the fall. When I was a little girl in New England it was all about the foliage and jumping in the leaves. At the Arts Council for Monterey County, it's all about the thrill of getting art classes started in as many schools as possible as quickly as we possibly can! We are so thrilled to report that this year dozens more schools and community centers throughout the county are abuzz with music, visual arts, dance and drama - thanks to your support!

If you've had a chance to see our wonderful [#Because of Arts Ed](#) videos by Arts Council staff members Karyn Lee-Garcia and Austin Foster, you've witnessed so many reasons why this wonderful development is so crucial and I'm sure you have many of your own memories to share. The arts are truly the answer to reducing anxiety and increasing engagement for every child, creating healthier thinking and more caring behavior while building a more vibrant and welcoming school community.

Later this fall, thanks to the MC Gives! Campaign, we will be adding more layers to our Arts as Healing Intervention Program - intensive programs for isolated seniors, veterans, and youth affected by trauma that help with recovery by building new pathways for calming and connection through creativity. For more details and more ways you can get involved, please read on!!

Over the years, we have strengthened the capacity of all arts organizations and cultural groups to more effectively serve our families and we have influenced a broad range of leaders to incorporate the arts to reach their goals. Thanks to our supporters and partners, we bring high quality arts programs to more and more residents - including those who have historically had little access.
